**JOSEPH LAPIANA – SUBDIVISION
PUBLIC HEARING (continuation)**

The pinning letter was submitted along with the final approval letter from the Department of Environmental Conservation. Paul McCreary stated that the permit looked good and chairperson Marilyn Cohen found all required paperwork to be in and complete. Aven Kerr made a motion to close the public hearing. Bonnie Schoonmaker seconded, and this carried. The public hearing closed at 7:05PM. Wendy Carroll pointed out that the permit from the Department of Environmental Conservation that is associated with the culvert expires in one year. Peter VanAlstyne submitted new maps with the TAX ID correction. Deputy Chairperson Donna Staron reviewed the Short Form SEQRA application, which shows no adverse effects to the following: air quality, surface or groundwater quality or quantity, noise levels, existing traffic patterns, solid waste production or disposal, potential for erosion, drainage or flooding problems. Also, there are no

aesthetic, agricultural, archaeological, historic, or other natural or cultural resources or community or neighborhood character concerns. There are no significant effects to vegetation or fauna, fish, shellfish or wildlife species, significant habitats or threatened or endangered species. The community's goals for the land are not affected, and there are no long or short term effects identified. Since this is the case, Ms. Staron moved that this is to be considered an unlisted action, and there is no significant adverse environmental effect in approving this subdivision. Wendy Carroll seconded the motion and this passed.

Tony Ooms motioned to accept the sub-division. Wendy Carroll seconded the motion, and it passed.

Tony Ooms motioned to adjourn the meeting. Dorothy Mackerer seconded the motion and this carried. The meeting was adjourned at 7:10PM.
